

RASHMI G

Address: 56,1st main road Doddabasthi Bengaluru-56

Email:rashmi.g178999@gmail.com

Mobile: 9380602542

CGPA: 6.5

Profile

I am an AWS Certified cloud practicion and have completed my AWS Cloud practician course with Ethnus, an Authorized Training Partner of AWS. I am looking to work in cloud development support or architecture where I can implement my skills and help in the growth of the organization. I am ambitious and driven. I thrive on challenge and constantly set goals for myself, so I have something to strive towards. I am not comfortable with settling, and I am always looking for an opportunity to do better and achieve greatness. My vision is to be an honest, empathetic and impactful project leader and to be recognized internationally within my industry.

COURSE	INSTITUTE/COLLEGE	BOARD/UNIVERSITY	SCORE	YEAR
BE(Information science and Engineering)	East West Institution Of technology	VTU	6.5 Cgpa	2022
2 nd PUC	RNS Pre University College	DPUE	51.99%	2017
10th STD	St Philomena’s Memorial High School	STATE	82.22%	2015

Academic Projects

1. Main project.

- Automatic Detection of White Blood Cells and Lung Cancer Using Machine Learning.

The main aim of this system to predict the cancer in its early stages so that patient treatment must be on time. By machine learning we have proposed a system which is automatically detect the cancer.

2. Mini Projects:

- Baby Care Management System on DBMS:

This project gave me the idea about how large data are stored inside a database and organized to that can be retrieved easily and in a more efficient way.

- Doctor Appointment Management System on Web Development

The web application is created using HTML and PHP. The purpose of this project is to check the availability and book appointment for Doctor through online

Hands-On Experience/ Mini Project:

- Static and Dynamic Website Hosting on AWS
- Working with the cloud storage (S3, EBS, EFS)
- Micro service and server less architectures
- Working with Managed Databases on AWS
- Decoupling of architectures
- Automating the infrastructure
- Migrating the databases
- Managing users and services access control on AWS
- Building Load balanced, highly available and scalable architectures

Internship

1. Company: Techciti Technologies Private Limited (August 2021 - September 2021)

Domain: Java

Project: Advanced and Secured Banking Transaction.

Software tools are used: Net beans, xamp

Skills

- AWS Cloud Computing- AWS Core Services, Compute (Amazon EC2, Lambda), Storage (S3, EBS), Databases (RDS, Dynamo DB), VPC, Identity and Access Management, AWS Well Architected Framework.
- Java, web development

Certification

AWS Certified cloud practitioner

Java certified by Ethnus Codemintra

Courses

AWS Cloud Foundation

AWS Cloud Architecting

Java

Achievements

- Acquire badges in Salesforce Trailhead.
- Paper Publication: On my main project I had published the paper in IJRAR and received the certificate on it.

Declaration

I hereby declare that the above-mentioned information is correct up to my knowledge and I bear the responsibility of the correctness of the above-mentioned particulars.
