"A driven individual with a Bachelor's degree and hands-on experience in software development. Passionate about creating efficient, scalable solutions, problem-solving, coding, and collaborating with teams on innovative projects to drive success."

WORK EXPERIENCE

Graduate Engineer Trainee | Reliance Industries Limited | October 2023

- Worked as a Software Developer in an IP Support team, responsible for creating various web portals to enhance network monitoring and management.
- Developed an **inventory portal** for tracking **records** across multiple teams, improving **data accessibility** and management using **Python-Django**, and **HTML/CSS**.
- Built a dynamic **map tool** to track **device status** in real-time, monitoring **4G, 5G, and FTTH networks** for better troubleshooting using **reachability** and **pinging techniques** with **Flask** and **JavaScript**.
- Created a **graphical visualization tool** to analyse **fluctuations** in **network parameters**, such as **query rates**, **CPU utilization**, and other critical metrics, utilizing **JavaScript libraries** for data visualization.
- Designed and maintained a central **dashboard** to provide an overall view of key network data, offering **summaries** and insights for decision-making using **Python, Flask, HTML/CSS**, and **JavaScript**.

Web Developer Intern | Suvarchala Solutions | December 2022-May 2023

- Contributed to the development of the company's new website, **Cyber-walnut**, using modern web technologies.
- Assisted in the development and maintenance of the website using **HTML, CSS, JavaScript**, and other web technologies.
- Collaborated with senior developers to implement **responsive designs** and enhance website functionality.
- Assisted in **content management** and ensured it was displayed effectively on the website.
- Gained hands-on experience with the full **web development lifecycle**, from planning and design to deployment.
